

Research and Scholarship Committee

Ever wanted to be mentored, or mentor current and future academic librarians, in research and scholarship? Join the CAPAL Research and Scholarship Committee as we journey map our proposed Research Mentoring Program. We are looking for both potential mentees and mentors to attend this session and help us build a rewarding program. We will be introducing our ideas, but we want your input so the program serves the needs of current and future librarians who wish to participate in research and scholarship.
